## ABOUT ME

I'm a game programmer, Augmented Reality (AR) and Virtual Reality (VR) developer which specialise in Unity Game and App development. I have a strong perseverance for learning new things and taking on challenges.

I am a self-taught person and I've always been extremely curious in the technical side of games, which led me to recreate and reverse engineered some known games in order to understand how the game mechanics work.

## WORK EXPERIENCE

2018 - 2022

### EDUAPPS (MAL) SDN BHD

- Lead in development, and implementation of the graphic, layout, and production communication materials
- Develop most app as Augmented Reality and Virtual Reality App
- Handle User Database To Restrict Access to User
- Handle App Uploading on Both Ios and Android
- Handle Asset and Content Management as Downloading Content (Cloud Content Delivery)

2018

### PETROLIAM NASIONAL (PETRONAS) SDN BHD
